## China RoHS Solution

### SinoApps:

**SinoApps, LLC** is a recognized On-Demand Environment Compliance Solution for global product environmental regulations. We offer online applications for EU REACH, China RoHS Compliance, and Market Place for RoHS Compliant products and suppliers

SinoApps has offices in US and China. We work closely with various government agencies to ensure our customers comply with the latest and most accurate EU REACH and China RoHS regulations. Details may be found at [www.sinoapps.com](http://www.sinoapps.com)

### China RoHS:

All manufactures are facing significant challenges to comply with China RoHS regulation and require help to address the following critical needs:

- Need an easy, rapid and economic way to generate China RoHS Reports
- Need to have the reports in Simplified Chinese to satisfy China Ministry of Industry Information (MII) regulation
- Need an effective way to collaborate with customers, vendors or suppliers online to share, track, view, update and download China RoHS reports

### Solution Offering:

SinoApps provides the following functions for China RoHS Compliance

- **China RoHS Declaration Reports In Chinese**

SinoApps online service generates China RoHS declaration reports automatically based on a product's substance and material data.

- **Marketplace for Compliant Manufacturers and Buyers**

SinoApps online marketplace provides users a unique platform and an effective way to search for buyers, manufacturers or distributors who are compliance enabled or certified.

- **Collaboration with Customers, Vendors or Suppliers**

SinoApps stores China RoHS reports online so manufactures can collaborate with customers, vendors or suppliers to view, track, edit and download reports 24x7 from any where.

- **Phase II Ready**

As part of SinoApps service roadmap, SinoApps will provide end-to-end services to customers to comply with China RoHS phase II requirements from testing to compliance certification.

### Endorsement:

SinoApps' services have been affirmed by China Ministry of Information Industry (China MII) - the regulatory body of China RoHS. **“Not only does SinoApps provide its customers' China RoHS needs, it also helps companies develop growing business in China.”** said Mr. Shaojun Yang, Deputy General Director of Ministry of Information Industry of Shandong Province, China.
