

SinoApps

EU REACH Solution

SinoApps:

SinoApps, LLC is a recognized On-Demand Environment Compliance Solutions for global product environmental regulations. We offer online solutions for EU REACH, China RoHS Compliance, and Market Place for RoHS Compliant products and suppliers

SinoApps has offices in US and China. We work closely with various government agencies to ensure our customers comply with the latest and most accurate EU REACH and China RoHS regulations. Details may be found at www.sinoapps.com

EU REACH:

The new EU chemicals regulation (REACH) entered into force on June 1 2007. It imposes several new requirements of use of chemical substances. It affects all industries involved in the manufacture, import or use of chemicals and it would put your products and profits at risk if no REACH-compliant information is submitted.

Knowing what is in your products and the composition of the substances is a fundamental step in lowering that risk. In other words, "No Data, No Market."

Solution Offering:

SinoApps provides the End to End Solution for EU REACH Compliance:

- **Real time analysis of product REACH status in its substances:**
Provides real time analysis of all product substance status based on EU REACH ruling and generates **Substance REACH Status Report** that details all substance status for Pre-registration, Registration or Notification, and identify Substance of Very High Concern
 1. Simple Excel datasheet to collect product substance info
 2. Online table for easy data entry and modification
 3. Instant review of substance REACH status
 4. Substance REACH Status Report to assess REACH status
- **Automatic IUCLID5 XML file Generation:**
System generates **IUCLID5 XML file automatically for Pre-Registration and Registration**. IUCLID5 XML is a standard file format for EU REACH registration. SinoApps online service will generate IUCID5 XML file for you automatically so you do not have to install IUCLID5 on your system.
- **"Only Representative" for Registration:**
The ultimate goal of EU REACH is to register substances at European Chemical Agency (ECHA). SinoApps will register your substance(s) online through our well-established "Only Representative" partners.
